## Mold & Indoor Air Quality Consulting Services

In the last few years, an increasing number of claims alleging personal injury and property damage resulting from mold infestation and exposure have been brought by property owners, employees, tenants, building occupants, and local governments.

These claims have garnered significant publicity, resulting in surprising verdicts, and causing reactions by impacted industries.

### Who uses our Services

Realtors, owners and property management companies retain Certified-Environmental as hedge against erroneous litigation.

### As your Indoor Air Quality/Mold consultant we offer:

- Indoor Air Quality evaluations, Project Management in all classes of buildings and occupational settings.
- Legal/Expert Witness Full range of legal support, including expert witness services. Expertise in assessing sampling protocols and laboratory data, fungal biology in indoor environments, fungal mycotoxins and their potential health risks, medical mycology, etc.
- Mr. Gray is on the Government Affairs committee of the Indoor Air Quality Association and obliged to keep you up to date on pending and existing California laws,
- Telephone or site consultation five days a week for our preferred client members.
- Latest sampling and analytical equipment.
- Access to: The Indoor Air Quality Consortium ([iaq-consort.org](http://iaq-consort.org)) for *STRUCTURAL PASTURIZATION*.
- The Certificate of Compliance which meets the California toxic mold laws are issued upon completion of each *Structural Pasteurization* project.

***“Every real estate transaction need be completed with the knowledge that a thorough, professional evaluation has been performed, and that you have the answers you need before there is no recourse.”***
